A BRIEF HISTORY OF THE CLUB

“On 19th January 1950, those interested in the formation of the Austin 7 Club met to discuss details of its formation.”

Thus read the first minutes, when eleven Austin Seven enthusiasts met and formed an interim committee. Immediately the club embarked on an active and varied motor sport career with a series of club runs, treasure hunts, hill climbs, border runs and observed section trials. Before the middle of 1950 a club badge was designed, and in July the constitution was adopted and a committee elected.

In the early days many of the competitors drove their Austins as everyday transport and quite often “improved” them to suit their requirements, as the Austin Seven was very adaptable to the “Special” builder. The various sections of the sport developed and competition rules and trophies evolved, together with formulae devised to regulate the construction of vehicles used in circuit racing and observed section trials. These formulae were later modified to obviate the necessity of using many Austin components, as their increasing scarcity put them at a premium for those wishing to restore Austins for the road. The 750 formula withered to a sprinkling of cars, but thankfully the genesis of the historic racing movement in the 1970s regenerated interest. Nowadays we see regular appearances by many original cars, augmented by more recently created examples.

The observed section cars, whilst no longer of Austin origin, continue to be competed under the aegis of the club, with occasional international competitions being fostered by our group, along with New Zealand and English interest.

The club’s credentials in motor race officiating and organisation were established from the mid 50’s, when we were seconded at short notice to provide trackside communications at the memorable Albert Park races. Thence followed similar appointments at Phillip Island, Sandown Park and Calder. Notably, Fred Darling continued his involvement as chief communications official through all the Australian Grands Prix until his retirement after the 1999 event.

We cut our teeth as race promoters with the introduction to this country of the Six Hour Relay. Run initially at Fisherman’s Bend, the meeting then moved to Calder and later to Winton over a period of about ten years through the 60s. Then after a few years’ respite, we were back into it again with Historic Winton. Also in 1968, CAMS called upon us to conduct an open motorkhana at our Mickleham venue, which was the progenitor of the Victorian Motorkhana Championships.

A growing need for replacement parts for the Austins was recognised with the establishment of the Spares Garage. This has grown in range and quality to the stage where an Austin can now be refettled and maintained better than at any time since production ceased, and usually with better than original parts.

Our club took a really deep breath in the early 1990s, and purchased the property that, with substantial modifications, became the clubrooms that we enjoy today. Opened in early 1995, this gave us a purpose-built auditorium, a properly set up spare parts department, committee room and library – something of which we can be justifiably proud.

The club is still as diversified as ever and, while the types of events conducted may have varied over the decades, we now have border runs, other extended runs, day outings and concours for the road cars. There is also a full calendar of racing, sprints and hillclimbs for the racers, a season of twelve trials for the O.S.T. cars, and the organisation of the prestigious Historic Winton races and Myrning Historic Car Sprint.

OUR FOUNDING PATRON – A SHORT HISTORY.**Colonel A.C.R. Waite, M.C., O.St.J., D.L., J.P.,
Freeman of the City of London**

Arthur Waite was born in Adelaide in 1894 and left there with his regiment in 1914. He survived the Gallipoli campaign, fought in North Africa, was wounded in France and received the Military Cross. Whilst convalescing in hospital he met a volunteer nurse, Irene, eldest daughter of Herbert (later Lord) Austin. He married her in 1918 and six months later joined the Austin Company. He competed with success in Austin 20s, then later in Sevens, initially in 1923 in a fabric-bodied two-seater, then other cars.

In 1923 he drove an Austin Seven into first place in the International Grand Prix for light cars at Monza, Italy, and the next year he drove an Austin Seven to 3rd place at Le Mans in the 750 cc class of the Grand Prix du Voiturettes. This was followed by a number of successes in 1925 in the first supercharged “works” car, in which a number of Class H records were broken. He held many records for some years, including some set at Brooklands in 1926 in another Seven.

In 1927 he and his wife came to Melbourne to work for the Cheney organisation and organise Austin Distributors. On hearing of the upcoming first Australian Grand Prix in 1928, he requested a car be sent from England in which to compete. He was disappointed to find that his fully developed factory car had been sold and what he received was a Super Sports road model. However, the Austin Seven, the only supercharged car in the race, was the winner. A similar car is represented in model form on the Lex Davison Trophy, which was awarded to the winner of the Australian Grand Prix until that event became a World Championship round.

He returned to England in 1929 and in the subsequent year was made a director of the Austin Motor Company Ltd., (later British Motor Corporation Ltd.). At the same time he raced Austins, a notable success being the 750 cc class win in the “Double Twelve” race. In this he co-drove with the Earl of March one of the orange “TT” cars, which went on for a highly competitive season capturing several International Class H records. Then in 1931, in charge of the Austin racing department, he directed the preparation of a specialised side valve single seater car which Cushman drove to recapture, at just over 100 mph, a number of records set by M.G.

Colonel Waite subsequently retired as an Executive Director of B.M.C. in 1964, and passed away in 1991.

LIFE MEMBERS

From time to time, the Club has bestowed Honorary Life Memberships on those who have conspicuously served the Club. This is an attempt to briefly encapsulate the reason for the award of Life Member.

Most of the Life Members have subsequently continued to contribute towards the Club.

Fred Thorne (Nov. 1960)

Fred was one of the founding members of the Club in 1950 and was a member of the first eight committees, serving as President from 1952 to 1956, and again in 1959.

John Pryce (April 1962)

John was extremely active in all sections of the Club, but in particular with Observed Section Trials, which he introduced into the Club shortly after joining in 1950. John had competed in O.S.T.s in England, and continued to compete in Australia with participation from all members of his family. He served on committee from 1950 to 1958 and on the CAMS Track Safety Committee for a number of years. Having been President of the CAMS Victoria State Council for some years, John was recognised with the CAMS Award of Merit.

His passing was commemorated by renaming the Park Orchards Trial in his honour.

Frank Walter (Oct.1964)

Frank had served for more years on committee than any other member, 11 times at the time of award of Life Membership, and was also active across all interests of the Club. He ran the communication team at Sandown Park and built and/or maintained all the club's communications and timing equipment. He also served on the CAMS Victoria State Council and as the Club's CAMS Delegate for some years, and received a CAMS Service Award.

Fred Darling (Dec.1965)

Fred put in nine years as Vice President/Treasurer from 1956 to 1964. He ran the communications team at Phillip Island in its various incarnations, was on the communications team at Sandown, and was always either competing or officiating at most of the Club's events.

Trevor Cole (Sept. 1974)

Trevor had served seven years on committee and on a number of sub-committees. Being one of the most active Austin 7 racing drivers, he was awarded his Life Membership for his significant role as an ambassador for the Club.

John Whitehouse (Sept. 1974)

A committee member for four years, John was an active racing participant. He was awarded Life Membership for his role of introducing the Six Hour Relay Race to Australia, which our Club conducted from 1960 to 1972, and for his role as an ambassador overseas when, in collaboration with Bill Morling, he created the definitive 750 Formula car, which they successfully campaigned for a season in the U.K.

Dale Shaw (Sept. 1974)

Dale was Secretary of the Club from 1966 to 1971, having already commenced an active motor sport career. A gifted and innovative designer, Dale progressed through Austin 7 racing cars, and then diversified into O.S.T. cars, with which he dominated for many years, incidentally winning the Victorian Motorkhana Championship twice in one such car. It is a testimony to his workmanship that both his racing car, and some of his trials cars, are still extant up to 40 years later.

Dale was also responsible for introducing the annual Austin Seven Rally in 1967.

Graeme Logan (Dec. 1977)

Graeme commenced his service to the Club in 1968, served as Membership Secretary from 1969 to 1972.

Active in almost all facets of the Club his Life Membership was largely the result of his establishment of the spare parts section, which he ran from home for many years.

Geoff Taylor (Dec. 1977)

Geoff was Club Secretary for five years up to 1965, subsequently Comp. Sec. He is well known for his active participation and promotion of O.S.Ts, being one of the first to build a Special, the AusTen.

Tony Johns (Dec. 1977)

Tony spent several years on Committee in various capacities, culminating in his Presidency in 1973. Amongst other activities, Tony is notable for his tidy and extremely rapid conduct of a series of racing Austins, and spearheaded the legendary "raid", when a team of cars was built and taken to England, giving the locals a right shellacking.

John Bowring (Dec. 1977)

"Shanks" inhabited the Committee for six terms between 1958 and 1968, and is well known for creating and competing in the whole spectrum of cars, from O.S.T. specials through to racing cars.

David Lowe (Dec. 1977)

Competition Secretary for eight years from 1961, David was deeply involved in running the Six Hour Relay, being Secretary of the Meeting from 1967 to 1972, when our Club last conducted the event.

Bill Sheehan (Dec. 1978)

Bill served seven and a half years on Committee, three as President when awarded his Life Membership. He has raced, competed or rallied Austin 7s in most states and extensively overseas. Coachwork creator, raconteur and walking encyclopaedia on all things Austin he has built or restored over 200 Austin 7 bodies, Bill was responsible for creating Historic Winton and running it for the first two years. Bill also initiated and was responsible for obtaining the services of Colonel Arthur Waite as our Patron.

Robert Humphreys (1980)

Rob joined the Club in the early 1960's, and had served 8 years on Committee, and served on numerous sub-committees. Rob was active in O.S.Ts and motorkhanas but has now settled back into more Austin-like pursuits. He also contributed very greatly to the modifications to the Club Rules needed for the Club to become an incorporated entity.

Ilona Booth (1983)

Ilona is much more than just a pretty face, having a sharp intellect and a range of interests far wider than merely the sphere of vintage motoring. Her involvement with the Club encompasses the whole gamut, having joined the Club many years ago with hubby Bob. Ilona has been a trials passenger, Secretary of Historic Winton, Editor, as well as a driving force in encouraging a diversity of social events with their focus above the bonnet.

Brenda Campbell (1983)

From modest beginnings, as passenger for husband Grant in O.S.Ts, Brenda's organisational capacity soon became apparent. Her long tenure as Secretary of the Historic Winton race meeting coincided with its development as the pre-eminent event on the National historic calendar, and her polite but determined persistence has resulted in many improvements for historic racing generally.

Norma Brown (1986)

Norma appeared on the scene initially as “Stewie’s Mum”, but remained for years after his departure, cheerfully and tirelessly doing any mundane task, be it scorekeeping at an O.S.T., or any other chore. Norma was the Club’s first female Secretary. A jolly soul, and a jolly good sport.

Grant Campbell (May 1995)

Grant burst onto the scene in the 1970’s as one of those few “naturals” who start winning OSTs early. Trouble is, he hasn’t stopped winning yet, with numerous John Pryce Trials to his name, not to mention other trials and ‘khanas. Grant’s input into the running of Historic Winton should never be underestimated, particularly in the design of programmes and artwork for both this and Arthur’s Seat. His and Brenda’s representation of the Club as our delegates to CAMS State Council is thankless work, but necessary scrutiny of those who would rule us. Grant’s often forthright and thought-provoking contributions at club meetings are welcome, even if they keep Committee on its toes.

Doug Veel (Nov. 1995)

Doug Veel is one of the “early birds” to join the Club, having first joined the club in 1951. In the early days he was noted for the number of different Austins he had owned, often buying one on the Saturday, competing in a Sunday event, and selling it the next week. He was also noted for the diabolical cunning with which he set the clues for Treasure Hunts. With a stint in 1993-4 as President and the posts of Vice Pres/Treasurer and Minute Sec. in early years, he has contributed much to the running of the Club.

Michael Shegog (1999)

This Club is fortunate in having members who can channel their expertise to the Club’s advantage. One such is Mike Shegog, who has put untold time and effort into the development of our Spares Department. Whether it be sourcing parts worldwide, or commissioning the manufacture of items not otherwise available, Mike has built this area into the envy of other historic marques.

Bob Booth (2000)

As lively as a cricket, with an enquiring mind and a gift for lateral thinking, Bob’s birthdate of Feb. 29th means that he is really only eighteen years old. Perhaps this explains his boundless enthusiasm. Always forthcoming with hints and encouragement for car builders young and old, Bob can create mechanical marvels from the most unlikely sources. His “can do” attitude inspires many in the Club

Rick Perry (2001)

Another one of the Club’s quiet achievers, Rick first came to prominence as a special builder par excellence in the sixties, with a succession of cars for the O.S.T, ‘khana and clubman sports categories, along with his friend and rival Dale Shaw. Rick subsequently became more involved with Austins, while still finding time to campaign a succession of historic racing cars. His organisational flair manifested itself as Treasurer, for nine years, in developing our accounting system to a high standard, and his calm, pragmatic approach to management problems is invaluable in tackling issues that may arise.

John Cox (2003)

John has been an active participant in the Club, and particularly in Observed Section Trialling as both a competitor and official for many years. For most of this time he has been the key person in the preliminary work of preparing venues for coming OST events.

SUB COMMITTEES

There are several sub-committees established within the framework of the Austin 7 Club, to provide organisation structures, leadership and/or advice as applicable for the better enjoyment of the various facets of club activities. This is a brief run down of what is available. Incumbent members and contact numbers can be found in the “Light Shaft”.

Club building was established initially to co-ordinate the purchase and fitting out of our clubrooms, and latterly concerns itself with the ongoing maintenance and upgrading of this facility.

O.S.T. committee is the body which sets the formula for trials cars, organises the trials, locates venues for their conduct and generally oversees this side of the club’s activities.

Historic Winton is the organising team behind our successful Historic Race Meeting, made successful by the huge amount of work they put in. This is virtually a year-round enterprise, what with chasing sponsorship, organising the event, the printing, the officials and the myriad details involved.

Hillclimb, once again, runs our Historic Hillclimb at Arthur’s Seat each year. Although a smaller event in terms of numbers of entries, the temporary nature of the venue and the number of statutory bodies to be accommodated make this an even more convoluted venture.

Technical encompasses several noted sages, each with his own fund of knowledge in a specific area. Be it restoration, racing or trials construction, someone will have the answer that you seek.

Spare Parts is the life blood of the club when it comes to sourcing that hard to find part vital to getting your Austin back onto the road or track, as may be. When England looks to us for parts, we must be doing something right! Our mail order facility is available for remote or overseas members.

Mail out. You would not receive your “Light Shaft” or other distributions were it not for the efforts of these stalwarts, who are in the invidious position of going unrecognised until something goes awry. I haven’t noticed them in years.

Web Master – is not some sort of supervisor of arachnids, but rather the custodian of our websites. Just like the traditional role of editor, this person relies on input from members to fill and update these sites. The good part is that you don’t necessarily have to submit your contributions in person – you can send them electronically, or get some computer literate person such as your grandchild to do it for you.

CLUB SERVICES

The “Light Shaft”, our club magazine, is published monthly (except January), and includes news of coming events, reports on past events, technical articles and items of interest to the enthusiast. All contributions should be forwarded to the Editor, either personally or by mail or electronically, at the addresses shown in the “Light Shaft”. Deadline for copy is the Hot Air Session, as detailed below.

Spare parts are available at the Monthly General Meeting, on the Saturday afternoon following, at the Hot Air Session or by mail order. Information on other parts and services is available either from Spares or from the Technical Sub-Committee. There is also a range of club badges and other regalia obtainable through Spares.

The club library is operated as a reference library at the clubrooms. Enquire of a committee member at a meeting if you wish to gain access to the books and magazines therein.

The magazine of the Austin 7 (England) is available on subscription, through the Membership Secretary. A quarterly publication from the Austin 7 Clubs’ Association, it contains a wealth of technical and historical information.

CLUB MEETINGS

Monthly General Meeting. This occurs on the first Wednesday of every month (except January). The formal business is dealt with, and may be followed by matters of general interest.

Hot Air Session. This meeting, held on the third Wednesday, is completely informal and as the name implies, gives everybody a chance to socialise and discuss their interests with other club members. From time to time, guest speakers and other novelties are organised for these nights.

O.S.T. Group Meeting. On the Monday following the M.G.M., the OST Group congregates to conduct business germane to their particular interests, and socialise. The Committee is always interested in any suggestions or offers of suitable speakers, films or similar items of interest to enliven and enlighten at meetings.

CORRESPONDENCE

All correspondence should be sent to the club as follows:

Austin 7 Club Inc.
P.O. Box 462
Moorabbin, Vic., 3189

with the exception of mail order for spares, which should be addressed to the appropriate member of the Spares Sub-Committee, as specified in the "Light Shaft".
The clubroom phone number is (03) 9532 3277.

CLUB EVENTS

Full details are usually published in the "Light Shaft" with specific information available from the Director or Sub-Committee running the event.

There are currently a number of major events that the club conducts, as follows:

Historic Winton. The premier Historic Car and Motorcycle race meeting in the country, since 1977, is a fixture on the national Historic calendar, on the last weekend in May.

The John Pryce Trial, formerly the Park Orchards Trial, has been a cornerstone of the club since the foundation year, 1950, and is held on the second weekend in August.

The Austin 7 Rally was first held at Chadstone Shopping Centre in 1967, and has graced a number of venues since. The date, like the locale, has floated, but is currently set in mid October.

A National Austin Seven Rally is held every five years.

The Myrning Historic Car Sprint is an invitation multi-club event, conceived in 2003 as a fund raiser for Myrning Community Hall by local farmer Graeme Hastings and Austin 7 Club member David Lowe, and is held in April each year for cars up to 1975 build, and includes period replicas. A classic car display adds to the day.

Extensive assistance is always required at these major events, and the organisers appreciate volunteers offering their services in good time prior to the event.

The club also conducts various other significant events, such as Border Runs and the Presentation Night dinner dance, along with day runs, motorkhanas, social outings, observed section trials and the like.

"HISTORIC WINTON" ORIGINS INCLUDING THE LOGO.

When I got the first meeting underway in 1977, there were many considerations apart from running a race meeting of the type that hadn't been done in Victoria before. For example one now pays a fee for the hire of the Winton circuit and everything comes supplied. Back then, one paid for the circuit and then had to arrange and pay for all the facilities - toilet-cleaning and pan collection, the public address system was only strung out as far around the circuit as you paid for, ticketing and Benalla staff to man the entrance gates, security and delivery of the takings (if any) to the Bank, etc etc and this took time and effort.

More importantly, we relied on Volunteers from our and other car clubs to staff the meeting and fortunately this situation has remained. We couldn't run a meeting without the people who help out year after year.

To assist and publicise the meeting I arranged

- (a) a Saturday night dance in a Benalla church hall,
- (b) a (legally permitted) parade of the racing cars driving through the Saturday-morning shoppers in Benalla & out to the circuit, and
- (c) a fly-over of vintage aircraft during the meeting.

But prior to this, posters and a program had to be designed. I drew up a design and gave it to newspaper artist Alex Stirling to provide finished art work, bromides etc suitable for printing. He did as bid (including the wording, the car & motorcycle illustrations, the actual layout) except that he altered my type-face (font) from a Times New Roman style to the more distinctive style of lettering we know today. Both this format and the names are now registered as the Club's property. One thing, that someone over the years has deleted, I initially included the words "Relive the Golden Past" and backed it up with a Goldy-yellow paper on the poster.

To initiate such a meeting was a huge gamble for the Club, but perhaps due to my optimism I included the words - "1st. Historic Winton" on the poster, little realising just how many successful meetings were to follow.

Life Member.

SCORING FOR THE EXCELSIOR TROPHY

1. The Excelsior Cup shall be awarded each year to the driver in OSTs who most improves his/her Average Section Score from the beginning of the season to the end. A replica shall be awarded for permanent retention by the winner.
2. Drivers eligible for the award shall be only those who:
 - (a) have competed in the previous year's competition, and
 - (b) have entered as drivers for at least 50% of the sections run during the year of the award.(See Rule 5)
3. The Average Section Score shall be found by dividing the total points scored by the number of sections in the trials entered (irrespective of the number of sections actually attempted). The A.S.S. thus ascertained at the end of a season, (save as provided in Rule 5), shall be the Final Section Average for that season, and also the Start Section Average for the next succeeding season. The difference between the two averages for any one season shall constitute the improvement or otherwise.
4. Calculations of the A.S.S. shall be taken to the nearest 3rd. place of decimals.
5. The OST Committee may, if the Start Section Average is deemed by them to be based on too few performances in the previous year, take into calculations of any particular case also the first, or the first two, trials in the following year, and the result so obtained shall be the Start Section Average for that year.
6. The one same car shall be used by any one driver throughout any one O.S.T. If a driver changes cars for any reason, only the first car used will be recognised for this award. Scores attained with any other car in that particular competition will not be used in calculations of the average. Passengers may be changed at any time without prejudice to the award.
7. The Section Average attained by any driver during the first year of his competition shall not be recognised as counting towards the award in that year, but shall, (subject to Rule 5 above), be his Start Section Average for the next following year.
8. In the event of a tie in the final figure of improvement, all drivers involved in such tie shall be deemed equal winners for that year.

OBSERVED SECTION TRIALLING

Observed Section Trials events were introduced to Australia from England in 1950 by the late John Pryce and have since been conducted regularly by the Austin 7 Club Inc. whose Competitions Committee has developed the specifications for the cars involved.

Observed Section trials are intended to be of strictly amateur status and involve the cars traversing marked sections (the number depending only on the time available) of muddy or slippery surfaces or tortuous, steep, or otherwise difficult terrain. The purpose of each competitor is to traverse the whole of each section non-stop from a standing start, without departing from the marked course or hitting any of the markers en route.

Sections, which may vary on length from 25m to 100m, are each divided into 10 parts, each marked by opposite pairs of pegs or markers. Points are awarded for the number of such pairs passed by the leading edge of a front wheel before the non-driving wheels both cease rotating. Pegs need not be at uniform intervals along the section - the distance apart determined solely by the estimated degree of difficulty; however they must always be widely enough spaced in each pair for it to be possible for cars to pass between without touching them.

The competition must not be timed, nor shall the highest speed attained be in any way a determinant of the competition: in fact, high speed is usually penalised by hitting markers, colliding with obstacles or leaving the course. The purpose is to maintain traction and maneuverability under difficult conditions.

Prior to constructing or modifying an OST Car, please check with the Austin 7 Competition Committee Representative to ensure specifications are relevant or in a state of imminent change. The OST Committee would be most happy to provide assistance with the interpretation and explanation of these specifications, or on any area of car construction.

The Club periodically adopts an Observed Section Trials Formula. This formula describes the constructional requirements for cars taking part in Observed Section Trials. Supplementary Regulations for individual events may be added to or subtracted from these requirements to meet special cases, but such alterations shall be kept to an absolute minimum.

This Formula will usually remain in force for the duration of the year of issue without alteration and will be reviewed annually in the final quarter of each year. Any amendments will be announced by 1st January, and the Formula as amended shall then remain in force for the ensuing 12 months.

Any car constructed to this Formula shall be deemed to comply for three years after a change has been made to this Formula, except where change has been made for reasons of safety.
