ORIGINS OF VICTORIA'S AUSTIN 7 CLUB SPARE PARTS DEPARTMENT

In the late 1960's I was on the Committee and the supply of parts from Repco and similar companies was drying up.

I suggested to the Committee that we do something but was told we didn't have any money and didn't see it as a role for our Club at the time.

A meeting was called with fellow A7 enthusiasts, held in our lounge room, and it was decided to have a sale day with the Club receiving a percentage of sales and what was left over would become the Club's spares, stored in our garage.

We moved to Deniliquin in 1973 and the spares went to a rented private garage in East Malvern, then to Hughesdale and finally to our own Club Rooms. Those in charge of spares during this time was myself, Alan Loughron, Ken Innes-Irons, Wayne Styles and Michael Shegog.

I wish to acknowledge the huge effort put in by our Spare Parts Volunteers. They operate the spares sales counter, order and catalogue many hundreds of items, source new parts, handle mail orders, banking and many other tasks.

Thank you to those Club Members who have donated their time, material and the making of spare parts.
